**Note:** There are no images provided for Question 8.

8. In his *Notebooks*, Leonardo da Vinci wrote the following.

“The painter is lord of all types of people and of all things. If the painter wishes to see beauties that charm him it lies in his power to create them, and if he wishes to see monstrosities that are frightful, buffoonish or ridiculous, or pitiable he can be lord and god thereof. . . . In fact whatever exists in the universe, in essence, in appearance, in the imagination, the painter has first in his mind and then in his hand; and these are of such excellence that they can present a proportioned and harmonious view of the whole, that can be seen simultaneously, at one glance, just as things in nature.”

What does Leonardo’s statement suggest about the role of the artist in the creative process during the High Renaissance? Select and clearly identify one High Renaissance work that reflects Leonardo’s ideas. Making specific reference to both the quotation and to the selected work, analyze the role of the artist in the creative process during the High Renaissance. (10 minutes)
