AP[®] MUSIC THEORY

2018 SCORING GUIDELINES

Question 2

0–9 points

Always begin with the regular scoring guide. Try an alternate scoring guide *only* if necessary. (See **I.D.**)

I. Regular Scoring Guide

- A.** Award 1 point for each segment correct in both pitch and rhythm.
- A “segment” is any half measure of the original melody, even if occurring over a bar line or beginning on a metrically weak pulse. (In common time or cut time, a segment is any set of two contiguous quarter-note beats; in compound duple meter, a segment is any set of three contiguous eighth-note beats.)
 - To receive credit, a segment must not overlap with any other segment receiving credit.
 - Do not subdivide a note to identify a segment.
 - To receive credit, a segment *may* be metrically shifted from its original position.
 - Give no credit for the final dotted quarter note if notation of pitches continues thereafter.
- B.** If at least one segment is correct in pitch and rhythm, award 1 extra point to the total. For example, a response that is correct in all aspects receives a score of 8 + 1, or 9. Exception: Do not award a 9 unless all measures have the correct number of beats. Award an 8 (i.e., do not award the extra point) to an otherwise perfect response that does not use bar lines correctly.
- C.** Record any score of 4 or higher and ignore the alternate scoring guides.
- D.** If after applying **I.A.** and **I.B.** the score is less than 4, try an alternate scoring guide.

II. Alternate Scoring Guides (Do not award the extra point to the total.)

- A.** Award $\frac{1}{2}$ point per segment of correct pitches. (Maximum of 4 points)
- OR
- B.** Award $\frac{1}{4}$ point per segment of correct rhythm. (Maximum of 2 points)

III. Rounding Fractional Scores

- A.** Half-point totals round down with one exception: A total score of $1\frac{1}{2}$ rounds up to 2.
- B.** Quarter points should be rounded to the closest integer.

IV. Scores with Additional Meaning

- 1** This score may also be used for a response that does not have one segment correct in both pitch and rhythm but has two or more redeeming qualities. (Do not award the extra point.)
- 0** This score is used for a response that demonstrates an attempt to answer the question but has no redeeming qualities (or only one) or a response that is off-topic or irrelevant.
- The dash is reserved for blank responses.

V. Scoring Notes

- A.** The following notations will *not* receive credit: enharmonic equivalents; octave transpositions; dots *before* the notehead; accidentals *after* the notehead.
- B.** If you use an alternate scoring guide, do *not* award the extra point to the total.
- C.** If you try both regular and alternate scoring guides, record the higher of the scores if there is a difference.
- D.** Scores from one guide may *not* be combined with those from another guide.

Question 2. The melody will be played four times. There will be a pause of 30 seconds after the first playing and a one-minute pause after each subsequent playing. The melody you will hear uses all four of the measures provided below and contains no rests. The melody will be played on an oboe.

The pitch of the first note has been provided. Be sure to notate the rhythm of that note. Now listen to the melody for the first time and begin working. 

Moderato

The melody for **Question 2** will now be played a second time. 

The melody for **Question 2** will now be played a third time. 

The melody for **Question 2** will now be played a final time.

AP[®] MUSIC THEORY

2018 SCORING COMMENTARY

Question 2

Overview

This question assessed students' ability to:

- hear a four-measure minor-key melody in compound meter and notate the melody;
- hear and notate ascending and descending scalar patterns in the minor mode;
- hear and notate a descending arpeggiated dominant triad;
- hear and notate the sixteenth notes in measure 2, and the dotted rhythm in measure 3 of the melody;
- hear and notate melodic patterns containing stepwise motion and melodic skips;
- hear and notate a chromatic lower neighbor tone in measure 3 of the melody;
- hear and notate an idiomatic melodic cadence; and
- hear and notate pitches correctly in treble clef.

Sample: 2A

Score: 8

This represents a very good response. Segments one through five and segments seven and eight are correct in pitch and rhythm (a segment is half of a measure or any three contiguous eighth-note beats), and 7 points were awarded. Segment six is missing the flat beside the B, so it is incorrect in pitch. Using the regular Scoring Guide, 1 point was added to the score of 7 for a total score of 8.

Sample: 2B

Score: 5

This represents a fair response. Segments one, two, and eight are correct in pitch and rhythm and were awarded 3 points. Although it is displaced by one eighth note, there is a full, correct segment six in measure three; 1 point was awarded for segment six. Segment three is incorrect in pitch, segments four and five are incorrect in pitch and rhythm, and segment seven is incorrect in pitch. Using the regular Scoring Guide, the four correct segments were awarded 4 points, and 1 point was added to the score of 4 for a total score of 5.

Sample: 2C

Score: 2

This represents a poor response. Only the first segment is correct in pitch and rhythm and was awarded 1 point. The final segment is correct in pitch, but the rhythm is incorrect. Using the regular Scoring Guide, 1 point was added to the score of 1 for a total score of 2.
