

```
setScreen("opening");
```

```
//This makes sure that the right screen is started on.
```

```
onEvent("nextF", "click", function( ) {
```

```
    setScreen("ordering");
```

```
});
```

```
//This takes the user from the menu screen to the ordering screen.
```

```
onEvent("nextS", "click", function( ) {
```

```
    setScreen("waiting");
```

```
});
```

```
//This brings the user to a screen that tells them to wait for their order to be served.
```
