

## Component C. Personalized Project Reference.

### Procedure:

i.

```
var tasks = [];

onEvent(▼ "addButton", ▼ "click", function() {
    var task = getText(▼ "taskInput");
    if (task != "") {
        tasks.push(task);
        updateTaskList();
        setText(▼ "taskInput", "");
    }
})
```

ii.

```
var tasks = [];

onEvent(▼ "addButton", ▼ "click", function() {
    var task = getText(▼ "taskInput");
    if (task != "") {
        tasks.push(task);
        updateTaskList();
        setText(▼ "taskInput", "");
    }
})
```

List:

i.

```
function updateTaskList() {
  setText(▼ "taskList", tasks.join("\n"));
}

onEvent(▼ "deleteButton", ▼ "click", function() {
  var taskToDelete = getText(▼ "taskInput");
  var index = tasks.indexOf(taskToDelete);
  if (index !== -1) {
    tasks.splice(index, 1);
    updateTaskList();
    setText(▼ "taskInput", "");
  } else {
    setProperty(▼ "MM", ▼ "text-color", ▼ "red");
    console.log("Not Found");
    setTimeout(function() {
      setProperty(▼ "MM", ▼ "text-color", ▼ "rgb(216, 224, 227)");
    }, 3000);
  }
});
```

ii.

```

var tasks = [];

onEvent(▼ "addButton", ▼ "click", function() {
    var task = getText(▼ "taskInput");
    if (task != "") {
        tasks.push(task);
        updateTaskList();
        setText(▼ "taskInput", "");
    }
}):

```
