AP® Macroeconomics
2003 Scoring Commentary

The materials included in these files are intended for use by AP teachers for course and exam preparation; permission for any other use must be sought from the Advanced Placement Program®. Teachers may reproduce them, in whole or in part, in limited quantities for noncommercial, face-to-face teaching purposes. This permission does not apply to any third-party copyrights contained herein. This material may not be mass distributed, electronically or otherwise. These materials and any copies made of them may not be resold, and the copyright notices must be retained as they appear here.

These materials were produced by Educational Testing Service® (ETS®), which develops and administers the examinations of the Advanced Placement Program for the College Board. The College Board and Educational Testing Service (ETS) are dedicated to the principle of equal opportunity, and their programs, services, and employment policies are guided by that principle.

The College Board is a national nonprofit membership association whose mission is to prepare, inspire, and connect students to college and opportunity. Founded in 1900, the association is composed of more than 4,300 schools, colleges, universities, and other educational organizations. Each year, the College Board serves over three million students and their parents, 22,000 high schools, and 3,500 colleges through major programs and services in college admissions, guidance, assessment, financial aid, enrollment, and teaching and learning. Among its best-known programs are the SAT®, the PSAT/NMSQT®, and the Advanced Placement Program® (AP®). The College Board is committed to the principles of equity and excellence, and that commitment is embodied in all of its programs, services, activities, and concerns.

Question 1

Sample 1MACLA – 14 points

The student receives all 14 points.

Sample 1MACLD – 11 points

This paper loses the money-market graph point in part (d) since the student uses AD instead of money demand and labels the horizontal axis RGDP instead of quantity of money. Also in part (d), the last point is lost for showing only an AS shift instead of an AD shift. Part (e) lacks an explanation of the currency depreciation.

Question 2

Sample 2MACLA – 7 points

The student receives all points.

Sample 2MACLD – 4 points

The student receives the first four points in parts (a) through (c). In part (e), note the student confuses nominal with real interest rates and the impact on the value of the dollar.

Question 3

Sample 3MACLA – 7 points

The student earns all 7 points.

Sample 3MACLD – 4 points

The student receives the two points in part (b) and in part (c). Student incorrectly discusses comparative rather than absolute advantage in part (a).
