2012 SCORING GUIDELINES**

Question 5

g: i iv V V i V i

SCORING: 25 points

I. Roman Numerals (7 points, 1 point per numeral)

Award 1 point for each correct Roman numeral.

1. Accept the correct Roman numeral regardless of its case.
2. Ignore any Arabic numerals, because they are included in the question itself.
3. Award no credit if an accidental is placed *before* a Roman numeral.

II. Chord Spelling, Spacing, and Doubling (6 points, 1 point per chord)

A. Award 1 point for each chord that correctly realizes the given figured bass.

1. The chord must be spelled correctly.
2. The fifth (but *not* the *third*) may be omitted from any root-position triad.
3. The fifth (but *not* the *third* or *seventh*) may be omitted from a root-position dominant seventh chord.
4. All inverted triads and inverted seventh chords must be complete.
5. All triads must contain at least three voices.
6. All seventh chords must contain at least four voices.

B. Award 0 points for a chord that breaks one or more of the conditions of **II.A.**

N.B.: Award 0 points for voice leading into and out of these chords. (See **III.E.**)

C. Award ½ point each for a correctly realized chord that has exactly one of the following errors:

1. A doubled leading tone, a doubled chordal seventh, or incorrect doubling of a $\frac{6}{4}$ chord.
2. More than one octave between adjacent upper parts.

D. Award 0 points for a correctly realized chord that has

1. More than one error listed in **II.C.**, or
2. The accidental on the wrong side of the chord.

However, *do* check the voice leading into and out of these chords.

AP[®] MUSIC THEORY

2012 SCORING GUIDELINES

Question 5 (continued)

III. Voice Leading (12 points)

- A.** In general, award 2 points for acceptable voice leading between two correctly realized chords. N.B.: This includes the voice leading from the given chord to the second chord.
- B.** If all chords are correctly realized and there are no voice-leading errors (as described in **II.B.** and **II.C.**), but the response seems to have excessive leaps within the upper three voices:
1. Award 12 points for voice leading if there are six or fewer leaps in the three upper voices combined.
 2. Award 11 points for voice leading if there are more than six leaps in the three upper voices combined.
- C.** Award only 1 point for voice leading between two correctly realized chords (as defined in **II.A.**) that features exactly one of the following errors:
1. Uncharacteristic rising unequal fifths. (See *DCVLE*, no. 4.)
 2. Uncharacteristic hidden (covered) or direct octaves or fifths between outer voices. (See *DCVLE*, nos. 5 and 6.)
 3. Overlapping voices. (See *DCVLE*, no. 7.)
 4. Motion leading to a chord with crossed voices. (See *DCVLE*, no. 8.)
 5. A chordal seventh approached by a descending leap.
- D.** Award 0 points for voice leading between two correctly realized chords (as defined in **II.A.**) if any one of the following statements is true:
1. Parallel octaves, fifths, or unisons occur (immediately successive or on successive beats), including those by contrary motion. (See *DCVLE*, nos. 1 through 3.)
 2. Uncharacteristic leaps occur (e.g., augmented second, tritone, or more than a fifth).
 3. Chordal sevenths are unresolved or resolved incorrectly. (The voice with the seventh must move down by step if possible. In some cases, such as a suspension, the seventh must be retained in the same voice and then resolved.)
 4. The leading tone in an outer voice is unresolved or resolved incorrectly.
 5. The 6th or 4th of a $\frac{4}{2}$ chord is unresolved or resolved incorrectly.
 6. No preparation or incorrect preparation of the suspension, or incorrect resolution of the suspension. (This includes the incorrect doubling of the note of resolution.)
 7. At least one of the chords has more or fewer than four voices (soprano, alto, tenor, and bass).
 8. More than one error listed in section **III.C.** occurs.
- E.** Award 0 points for voice leading into and out of an incorrectly realized chord.

IV. Scores with Additional Meaning

- 0 1** This score can be given to a response that has redeeming qualities.
- 0 0** This score is used for a response that represents an unsuccessful attempt to answer the question (has no redeeming qualities, or only one) or a response that is off topic or irrelevant.
- The dash is reserved for blank responses.

V. Notes

- A.** Do not penalize a response that includes correctly used nonchord tones.
- B.** An incorrectly used nonchord tone is considered a voice-leading error.
Award 1 point if the incorrect nonchord tone results in one error listed in **III.C.**
Award 0 points if the incorrect nonchord tone results in at least one error from **III.D.** or more than one error from **III.C.**
- C.** Half-point totals round up with one exception: A total score of 24½ rounds down to 24.

Question 5. (Suggested time—15 minutes)

Realize the figured bass below in four voices, following traditional eighteenth-century voice-leading procedures. Continue logically from the spacing of the first chord. Do not add embellishments unless indicated by the figured bass. In the space below each chord, supply the Roman numeral that appropriately indicates harmonic function.

g: i iv⁶ V V^{#4}₂ i⁶ V[#]₇ i

AP[®] MUSIC THEORY 2012 SCORING COMMENTARY

Question 5

Overview

The intent of this question was to test students' ability to:

- realize a figured bass progression in Common Practice style;
- demonstrate an understanding of diatonic harmony, including chord spelling in a four-part texture, voice leading, and doubling;
- analyze chords using Roman numerals;
- remember to raise the leading tone in the minor mode; and
- notate an authentic cadence with a 4–3 suspension.

Sample: 5A

Score: 23

This represents an excellent response. All Roman numerals are correct, and all chords are spelled correctly. The voice-leading connections between chords one through six are good and received full credit (2 points each). One point was awarded for chord spelling for the last chord, but the voice leading received no points because of the dissonance created by the suspended C in the soprano and the B-flat in the tenor. (Chord spelling: 6; Voice leading: 10; Roman numerals: 7; Total = 23).

Sample: 5B

Score: 16

This represents a good response. All Roman numerals are correct. Chords two, five, and seven are spelled correctly and were awarded 3 points for chord spelling. Because of spacing errors (more than an octave between alto and tenor) in chords three and four, $\frac{1}{2}$ point was awarded for chord spelling for each. The chordal seventh is omitted in chord six, so no points were awarded. Because of the uncharacteristic leap in the tenor between chords two and three, no voice-leading points were awarded for that connection. The voice-leading connection between chords four and five was awarded 1 point because of the overlap between the soprano and alto. Because there are misspelled chords, no points were awarded for voice leading between chords five and six, and between chords six and seven. (Chord spelling: 4; Voice leading: 5; Roman numerals: 7; Total = 16)

Sample: 5C

Score: 6

This represents a weak response. Four Roman numerals are correctly labeled. Chords three and seven are spelled correctly, but because the leading tone is doubled in chord three, $\frac{1}{2}$ point was awarded for that chord. Because no two contiguous chords are spelled correctly, no voice-leading points were awarded. (Chord spelling: $1\frac{1}{2}$; Voice leading: 0; Roman numerals: 4; Total = $5\frac{1}{2}$, rounded up to 6)
