These materials were produced by Educational Testing Service (ETS), which develops and administers the examinations of the Advanced Placement Program for the College Board. The College Board and Educational Testing Service (ETS) are dedicated to the principle of equal opportunity, and their programs, services, and employment policies are guided by that principle.

The College Board is a national nonprofit membership association dedicated to preparing, inspiring, and connecting students to college and opportunity. Founded in 1900, the association is composed of more than 3,900 schools, colleges, universities, and other educational organizations. Each year, the College Board serves over three million students and their parents, 22,000 high schools, and 3,500 colleges, through major programs and services in college admission, guidance, assessment, financial aid, enrollment, and teaching and learning. Among its best-known programs are the SAT<sup>®</sup>, the PSAT/NMSQT<sup>™</sup>, the Advanced Placement Program<sup>®</sup> (AP<sup>®</sup>), and Pacesetter<sup>®</sup>. The College Board is committed to the principles of equity and excellence, and that commitment is embodied in all of its programs, services, activities, and concerns.

# 2001 AP® MACROECONOMICS FREE-RESPONSE QUESTIONS

## MACROECONOMICS

### Section II

**Planning Time—10 minutes**

**Writing Time—50 minutes**

**Directions:** You have fifty minutes to answer all three of the following questions. It is suggested that you spend approximately half your time on the first question and divide the remaining time equally between the next two questions. In answering the questions, you should emphasize the line of reasoning that generated your results; it is not enough to list the results of your analysis. Include correctly labeled diagrams, if useful or required, in explaining your answers. A correctly labeled diagram must have all axes and curves clearly labeled and must show directional changes.

1. Assume that the economy is operating below the full-employment level of output and that the government's budget is balanced.
  - (a) Using a correctly labeled aggregate demand and aggregate supply graph, show how an increase in government spending will affect each of the following in the short run.
    - (i) Real output
    - (ii) Price level
  - (b) Explain how this increase in government spending will affect each of the following in the short run.
    - (i) Real interest rates
    - (ii) Investment

Now assume that instead of increasing government spending, the government decreases corporate-profits taxes.

- (c) Using a correctly labeled aggregate demand and aggregate supply graph, show and explain how this decrease in corporate-profits taxes will affect each of the following.
  - (i) Aggregate demand
  - (ii) Long-run aggregate supply
  - (iii) Real output
  - (iv) Price level
- (d) Assume that this country produces two goods, X and Y. Draw a correctly labeled production possibilities curve for this economy. Now show on the graph how this decrease in corporate-profits taxes will affect this economy's production possibilities curve.

## 2001 AP® MACROECONOMICS FREE-RESPONSE QUESTIONS

2. A movement toward a unified monetary policy within the European Union has led to an increase in real interest rates in member countries, but not in the United States. Explain how this increase in real interest rates will affect each of the following.
- (a) Purchases of United States financial assets by foreigners
  - (b) The international value of the United States dollar
  - (c) United States exports
  - (d) United States imports
3. Janet Smith deposits \$1,000 of her cash holdings in her checking account at First Federal Bank. The reserve requirement is 20 percent and the bank has no excess reserves.
- (a) What is the immediate effect of her deposit on the money supply? Explain why.
  - (b) What is the maximum amount of money First Federal can initially loan out? Explain how you determined this amount.
  - (c) What is the maximum amount of money the entire banking system can create? Explain how you determined this amount.
  - (d) Give one reason why the money supply may not increase by the amount you identified in (c).

**END OF EXAMINATION**
