   - Students must move beyond mere description, perhaps by explaining a document’s tone, the characteristics of the author, the intended audience, or how the intended outcome may have influenced the author’s opinion (or some combination of these).
   - Students may challenge the veracity of the author’s opinion or point of view, but they must move beyond a mere statement that the author is “biased” by providing some plausible analysis of how or why.
   - Mere attribution is not sufficient. Attribution is copying verbatim or only repeating information from the source line of the document.
