

**AP® MUSIC THEORY
2016 SCORING GUIDELINES**

Question 6

Bb: I I⁶ IV V⁴/ii ii V⁸⁻⁷ I

0–18 points

I. Chord Spelling (6 points, 1 point per chord)

A. Award 1 point for each chord that correctly realizes the given chord symbols.

1. The chord must be spelled correctly and in the proper inversion (i.e., the bass note must be correct). An incorrect accidental on the wrong side of the notehead will be considered a misspelling.
2. The fifth (but *not* the third) may be omitted from any root-position triad.
3. The fifth (but *not* the third or seventh) may be omitted from a root-position seventh chord.
4. All inverted triads and inverted seventh chords must be complete.
5. All triads must contain at least three voices.
6. All seventh chords must contain at least four voices.

B. Award 0 points for a chord that breaks one or more of the conditions of **I.A.**

Note: Award 0 points for voice leading into and out of these chords.

C. Award $\frac{1}{2}$ point for a correctly realized chord that has exactly one of the following errors:

1. A doubled leading tone, a doubled chordal seventh, or incorrect doubling of a $\frac{6}{4}$ chord.
2. More than one octave between adjacent upper parts.

D. Award 0 points for a correctly realized chord that has:

1. More than one error listed in **I.C.** (e.g., doubled leading tone and spacing error, or two spacing errors); or
2. The correct accidental on the wrong side of a notehead. (For an incorrect accidental on the wrong side of a notehead, see **I.A.1.**)

However, *do* check the voice leading into and out of these chords.

II. Voice Leading (12 points)

A. In general, award 2 points for acceptable voice leading between two correctly realized chords.
N.B.: This includes the voice leading from the given chord to the second chord.

B. If all chords are correctly realized, and there are no voice-leading errors (as described in **II.C.** and **II.D.**), but the response seems to have excessive leaps within the three upper voices:

1. Award 12 points for voice leading if there are five or fewer leaps in the three upper voices combined.
2. Award 11 points for voice leading if there are more than five leaps in the three upper voices combined.

AP® MUSIC THEORY 2016 SCORING GUIDELINES

Question 6 (continued)

- C.** Award only 1 point for voice leading between two correctly realized chords (as defined in **I.A.**) that features exactly one of the following errors:
1. Uncharacteristic unequal fifths. (See *DCVLE*, no. 4.)
 2. Uncharacteristic hidden (covered) or direct octaves or fifths between outer voices. (See *DCVLE*, nos. 5 and 6.)
 3. Overlapping voices. (See *DCVLE*, no. 7.)
 4. Motion leading to a chord with crossed voices. (See *DCVLE*, no. 8.)
 5. A chordal seventh approached by a descending leap.
- D.** Award 0 points for voice leading between two correctly realized chords (as defined in **I.A.**) if any of the following statements is true:
1. Parallel octaves, fifths, or unisons occur (immediately successive or on successive beats), including those by contrary motion. (See *DCVLE*, nos. 1 through 3.)
 2. An uncharacteristic leap occurs (e.g., augmented second, tritone, or more than a fifth).
 3. A chordal seventh is unresolved or resolved incorrectly. (The voice with the seventh must move down by step if possible. In some cases, such as ii^7 to cadential $\frac{6}{4}$, the seventh will be retained in the same voice.)
 4. The leading tone in an outer voice is unresolved or resolved incorrectly. N.B.: When I and vi are connected by V or V^6 (i.e., I–V–vi or I– V^6 –vi) early in the phrase (so that there is no expectation of a cadence), an $\hat{8}-\hat{7}-\hat{6}$ line is acceptable in any voice.
 5. The 6th or 4th of a $\frac{6}{4}$ chord is unresolved or resolved incorrectly.
 6. An embellishing tone specified by the figures is omitted or handled incorrectly. If the required dissonance occurs in the first half of the chord, then consider this as voice leading *before* the chord; if the required dissonance occurs in the second half of the chord, then consider this as voice leading *after* the chord.
 7. At least one of the chords has more or fewer than four voices (soprano, alto, tenor, and bass).
 8. More than one error listed in section **II.C.** occurs.
- E.** Award 0 points for voice leading into and out of an incorrectly realized chord.

III. Scores with Additional Meaning

- 1** This score can be given to a response that has redeeming qualities.
- 0** This score is used for a response that represents an unsuccessful attempt to answer the question (has no redeeming qualities, or only one) or a response that is off-topic or irrelevant.
— The dash is reserved for blank responses.

IV. Scoring Notes

- A.** Do not penalize a response that includes correctly used nonchord tones.
- B.** An incorrectly used nonchord tone will be considered a voice-leading error.
 1. Award 1 point if the nonchord tone results in one error listed in **II.C.**
 2. Award 0 points if the nonchord tone results in at least one error from **II.D.** or more than one error from **II.C.**
- C.** Half-point totals round up with one exception: A total score of 17½ rounds down to 17.

AP® MUSIC THEORY
2016 SCORING GUIDELINES

Definitions of Common Voice-Leading Errors (DCVLE)

Ex. 1	Ex. 2	Ex. 3	Ex. 4	Ex. 5a	Ex. 5b	Ex. 6	Ex. 7	Ex. 8
Parallel	Beat-to-beat	By contrary motion	Unequal 5ths (d5 to P5)	OK	Not OK			

1. Parallel fifths and octaves (immediately consecutive) — unacceptable (award 0 points).
2. Beat-to-beat fifths and octaves (equal perfect intervals on successive beats) — unacceptable (award 0 points).
3. Fifths and octaves by contrary motion — unacceptable (award 0 points).
4. Unequal fifths (d5→P5).
 - In a three- or four-part texture, a rising d5→P5 is acceptable ONLY in the progressions I–V⁴₃–I⁶ and I–vii⁶–I⁶ (no deduction).
 - A rising d5→P5 in other progressions is unacceptable (award 1 point only).
 - Unequal fifths between two upper voices are acceptable in either order when the voices are descending (no deduction).
 - P5→d5 is acceptable voice leading in either direction involving any pair of voices (no deduction).
5. Hidden (or covered) fifths and octaves in outer voices (similar motion to a perfect interval that involves one voice moving by step).
 - When the step is in the upper voice, as shown in Ex. 5a — acceptable (no deduction).
 - When the step is in the lower voice, as shown in Ex. 5b — unacceptable (award 1 point only).
6. Direct fifths and octaves in outer voices — unacceptable (award 1 point only).

Definition: Similar motion to a perfect interval that involves a skip in each voice. N.B.: Many sources equate “hidden” and “direct.”
7. Overlapping voices — unacceptable (award 1 point only).

Definition: Two voices move to a position in which the lower voice is higher than the previous note in the higher voice, or they move to a position where the higher voice is lower than the previous note in the lower voice.
8. Crossed voices — unacceptable (award 1 point only).

Definition: Voicing in which the normal relative position of voices is violated, e.g., if the soprano is below the alto or the bass is above the tenor.

Question 6. (Suggested time—10 minutes)

6A

Write the following progression in four voices, following eighteenth-century voice-leading procedures. Continue logically from the spacing of the first chord. Do not add embellishments unless indicated by the Roman and Arabic numerals. Use only quarter and half notes.

Unauthorized copying or reuse of
any part of this page is illegal.

Question 6. (Suggested time—10 minutes)

6B

Write the following progression in four voices, following eighteenth-century voice-leading procedures. Continue logically from the spacing of the first chord. Do not add embellishments unless indicated by the Roman and Arabic numerals. Use only quarter and half notes.

A musical staff in B-flat major (two flats) and common time (4/4). The staff consists of two systems of five lines each. The top system starts with a treble clef, and the bottom system starts with a bass clef. The progression is as follows:

B _b :	I	I ⁶	IV	V ₃ ⁴ /ii	ii	V ⁸⁻⁷	I
------------------	---	----------------	----	---------------------------------	----	------------------	---

The notes are represented by vertical stems and horizontal dashes indicating pitch and duration. The spacing between voices is consistent with eighteenth-century voice-leading conventions.

Question 6. (Suggested time—10 minutes)

6c

Write the following progression in four voices, following eighteenth-century voice-leading procedures. Continue logically from the spacing of the first chord. Do not add embellishments unless indicated by the Roman and Arabic numerals. Use only quarter and half notes.

AP® MUSIC THEORY 2016 SCORING COMMENTARY

Question 6

Overview

This question assessed students' ability to:

- write a four-part chord progression from Roman numerals;
- demonstrate an understanding of chord inversions;
- demonstrate command of voice-leading procedures, including repeating a chord with a change of inversion and root progressions by fifth;
- demonstrate knowledge of how to realize embellishing tones that are represented by figures;
- demonstrate knowledge of secondary dominant chords;
- demonstrate an understanding of tendency tones and their resolutions; and
- demonstrate knowledge of how to approach chordal dissonances.

Sample: 6A

Score: 17

This represents an excellent response. All of the chords are spelled correctly. Between chords two and three, there is a hidden octave involving the outer voices; 1 point was awarded for this voice-leading connection. All of the remaining voice-leading connections are acceptable. The response earned 6 points for chord spelling and 11 points for voice leading, for a total of 17 points.

Sample: 6B

Score: 9

This represents a fair response. There are spacing errors in chords five and six; these chords were awarded $\frac{1}{2}$ point each for chord spelling. Chord four is incorrectly spelled and was awarded 0 points; 0 points were awarded for the voice-leading connections into and out of this chord. All of the remaining chords are spelled correctly. Between chords five and six, the bass overlaps the tenor; 1 point was awarded for this voice-leading connection. Between chords six and seven, there are parallel octaves by contrary motion between the bass and tenor; 0 points were awarded for this voice-leading connection. The remaining voice-leading connections are acceptable. The response earned 4 points for chord spelling and 5 points for voice leading, for a total of 9 points.

Sample: 6C

Score: 3

This represents a poor response. There is a spacing error in chord three; this chord was awarded $\frac{1}{2}$ point for chord spelling. Chords two, four, and six are incorrectly spelled and were awarded 0 points; no points were awarded for the voice-leading connections into and out of these chords. Chords five and seven are spelled correctly. No voice-leading connections could be considered. The response earned $2\frac{1}{2}$ points for chord spelling and 0 points for voice leading, for a total of $2\frac{1}{2}$ points, which was rounded up to 3 points.
