

Missouri

Increasing the number of students who graduate from high school ready for college and career is a unifying priority for educators from every state. The College Board believes that its programs can be a platform to expand access to opportunities — through scholarships, challenging course work, fee waivers, and much more — and to propel students into college and career. Our programs — PSAT/NMSQT®, SAT®, and AP® — work together to provide actionable results, drive instructional next steps for individual students, and provide targeted policies for states and districts. Below is a summary of the 2014-15 PSAT/NMSQT, SAT, and AP participation and performance results in Missouri.¹
