I. SUBGROUP REPORTS

Highlights and Detailed reports can be ordered for subgroups of students defined in terms of any information in the ASQ data file (including your local questions, if any). Subgroup reports may be based on current ASQ data or on multiple years.

Be sure to define each subgroup so that students can be selected on the basis of specific responses to ASQ questions (or to combinations of ASQ questions). Examples of possible definitions follow:

- All female students [Note: male students would form a second subgroup]
- All in-state students
- All students who are female and who live in-state
- All students with SAT Verbal plus Mathematical scores over 1100
- All students living in zip codes... [give list of zip codes]
- All students living in states... [give list of states]
- All students who applied to... [give list of colleges]
- All students who were admitted to... [give list of colleges]
